Page 2 — Executive summary

We review four practical areas: website conversion, Google Business Profile, WhatsApp/call readiness, and DPDP exposure. The purpose is to show where enquiries may be leaking and what to fix first.

****Current lead-capture maturity:**** [LOW / MEDIUM / HIGH / UNKNOWN]

****Top 3 likely leakage points****

1. [Evidence-backed point]
2. [Evidence-backed point]
3. [Evidence-backed point]

****Priority recommendation:**** [One fastest fix]

Page 3 — Website scorecard

Area	Score 0–5	Evidence	Notes
Clear offer and CTA	[0-5]	[URL/screenshot]	[Notes]
Mobile experience	[0-5]	[URL/screenshot]	[Notes]
WhatsApp visibility	[0-5]	[URL/screenshot]	[Notes]
Call button visibility	[0-5]	[URL/screenshot]	[Notes]
Form simplicity	[0-5]	[URL/screenshot]	[Notes]
Trust signals	[0-5]	[URL/screenshot]	[Notes]
Privacy/compliance basics	[0-5]	[URL/screenshot]	[Notes]

Total score: [0-35]

Page 4 — Google Business Profile gaps

GBP item	Status	Evidence	Fix
---	---	---	---
Claimed profile	[YES/NO/UNKNOWN]	[URL]	[Fix]
Review response rate	[UNKNOWN/%]	[Last 20 visible reviews]	[Fix]
Photo freshness	[UNKNOWN]	[URL]	[Fix]
Service/category completeness	[UNKNOWN]	[URL]	[Fix]
Posts/updates	[UNKNOWN]	[URL]	[Fix]

Page 7 — Estimated leads lost per month

Use the formula, do not fabricate inputs:

``Estimated leads lost/month = monthly enquiries × estimated leakage rate``

Where:

- **monthly enquiries** = client-stated count OR public proxy clearly labelled as an estimate
- **estimated leakage rate** = percentage justified from visible friction and client process input
- **revenue impact** = leads lost × estimated booking rate × average ticket value

If inputs are unavailable, write ``UNKNOWN`` and show what data is needed.

Page 8 — 14-day fix plan + signature

****Days 1–2:**** confirm enquiry sources, WhatsApp owner, call tracking, form destination.

****Days 3–5:**** fix hero CTA, click-to-call, WhatsApp button, form confirmation, consent helper text.

****Days 6–8:**** build daily lead queue, missed-call log, first-response and follow-up templates.

****Days 9–11:**** update privacy/cookie basics and data inventory starter.

****Days 12–14:**** review numbers, document open risks, decide sprint or retainer.
